Inventory Analytics

Data	Parts
Total Parts analyzed	292

Qualification Status	Parts	Percentage
A - Most Likely Qualified for AM	32	11%
B- Likely Qualified for AM	79	27%
C - None Qualified for AM	51	17%

CO2 emissions / thousand kilometers

Time	Mode	Cost	CO2e
35 DAYS		\$85 (\$0.9 bulk)	~0.23 kg
3 DAYS		\$129	~7.75 kg
9 HRS		\$0.6 (\$8 print)	~0.02 kg

Top Categories for Digitization

Category	Description	Parts
Packing & Jointing	A substance or material used to completely seal joints so that no gas or liquid can escape from them.	4
Caps & Covers	Easy to attach, adjust to stay put, and protect objects from weather, dust and abrasion.	10
Couplings	The primary uses of couplings are to transmit power, absorb misalignment, absorb vibrations to protect surrounding products, and to not transfer the heat of the motor to the driven side	5

Top Parts for Digitization

Part Number	Part Name	Grade
819541B	PLUG WATER INLET COUPLING	A
819543B	FAN BLADE CONDENSER	A
819536C	COUPLING WCC, FEMALE	A
818661B	GASKET, SERVICE VALVE, LP	A
819540B	PLUG, WATER OUTLET COUPLING	A
819542C	FAN BLADE ,EVAPORATOR	A
102-795	COMPRESSOR SCROLL	A

Disclaimer: This list is a preliminary filter through our screening software

This analysis is based on the application and environmental factors from each part provided by the customer, further technical information on grade A and Grade B would be needed to proceed with business case and design stages.
